Specialist Aluminium Manufacturers

Specialist Aluminium Roof Manufacturers

Aluminium By Design (ABD) are manufacturers of quality, made to measure aluminium roofs, specialising in roof lanterns and orangery roofs. The superior natural strength of aluminium allows for a much larger glazed area with the structural integrity and strength to take several inches of snow and wind speeds of more than 100mph. The ABD roof system is an energy efficient thermally broken system that is suitable for both commercial and domestic purposes.

Our roofs can be glazed with polycarbonate sheeting or double glazed glass sealed units. The slim unobtrusive frames give you an elegant and aesthetically pleasing roof that can be polyester powder coated in almost any colour you desire.

Whether you decide to have a timber, PVCu or aluminium sided extension you should insist on an ABD aluminium roof - which will remain in a pristine condition for years to come with minimal maintenance required.

System Features

- Available in any of over 200 RAL colours.
- Available in Dual colour (e.g. White inside, dark grey outside).
- All standard glass types and easy cleaning glass available.
- Fully aluminium system - cappings etc. are NOT PVC.
- Optional solar control glass - make your room cooler in the summer, warmer in the winter.
- Roof pitch can be anywhere from 5 - 45 degrees.
- Crested or flat ridge cover available.
- Immensely strong, built to withstand wind speeds of 100mph+.
- Energy efficient thermally broken aluminium profile.
- Manual or electric vents.
- Electric vents can have combined heat and rain sensors.
- Virtually maintenance free and built to last - remaining in a pristine condition for years to come.

Orangeries, Conservatories & Winter Gardens

An extension with an aluminium roof and large area of glass is a great way to open up your home to the outside - offering maximum daylight and a useful expansion of your living space.

We have a wide range of roof styles and designs, with or without upstands, allowing you to construct beautiful conservatories, orangeries or winter gardens. We offer support and expert fitting advice for our aluminium roofs with a specialist onsite instruction service for when your product is delivered. Make room to breathe and your dream home a reality with an ABD aluminium roof.

All ABD products are manufactured in the UK.
